

Glass colour spectrum

About us

Since 1994 some of the most beautiful recycled glassware on the planet has been created out of our small cottage industry in Yellowknife. This remarkable glassware is handmade on the shores of great slave lake surrounded by the buzz of float planes, the vibrant midnight sun and the shimmer of the northern lights.

We use original northern patterns made by local artists. Each of our pieces is individually polished, stenciled and sand-blasted by hand.

“Each of our pieces is individually polished, stenciled and sand-blasted by hand.”

Workshops \$40

Join us in Old Town and experience our glass studio. You will have the opportunity to be creative, create memories with your friends and make your very own unique and eco-friendly souvenir, sandblasted with our handmade in Yellowknife stencil.

What is included?

We provide anywhere from an hour to two hours of instruction with a glass artist, all the necessary safety equipment and best of all a gorgeous recycled glass vessel to adorn with your favourite northern image.

Participant applying stencil

Demonstration of the grinding process

“...be creative, create memories with your friends and make your very own unique and eco-friendly souvenir...”

What will I learn?

You will be guided through the art studio with a demonstration of the polishing and grinding process. Then you will have the opportunity to chose and sandblast a northern design onto your glass vessel.

Booking times Please call in advance
